

USS LEXINGTON (CVS-16) COMMAND HISTORY FOR 1966

I. CHRONOLOGY OF OUTSTANDING EVENTS

23 March 1966	Most carrier landings in a 24-hour period.
21-25 March 1966	Most carrier landings in a five-day period.
31 March 1966	Most carrier landings in one daylight period.
21-31 March 1966	Most carrier landing in a ten-day period.
6 May 1966	152,000th arrested carrier landing. Most carrier arrested landings in the Fleet.
1 July 1966	LCDR (b) (6) achieves quadruple centurion.
19 August 1966	Change of Command.
7 September 1966	First student naval aviator carrier qualifies in the T-2B "Buckeyes."
29 September 1966	LCDR (b) (6) achieves quintuple centurion.

II. NARRATIVE

A. Command Organization. LEXINGTON commanding officers:

Captain Gordon A. SNYDER	9 June 1965 to 19 August 1966
Captain Jack C. HEISHMAN	19 August 1966 to Present

LEXINGTON is homeported at the Naval Air Station, Pensacola, Florida, and is the training carrier for basic, advanced, and Fleet carrier qualifications. LEXINGTON is under the operational control

of the Chief of Naval Air Basic Training when in the Pensacola area and under the operational control of the Chief of Naval Air Advanced Training when in the Corpus Christi, Texas area.

B. Operations. LEXINGTON's pattern of operations in 1966 was maintained on a monthly cycle--three weeks at sea and one week in port. Each month one week was spent in the Pensacola area for Naval Air Basic Training carrier qualifications (T-28 and T-2A/B aircraft), a second week in the Pensacola area for fleet carrier qualifications (A-6, A-4, E-1B, S-2E, C-1A, and EA-1F aircraft), and one week in the Corpus Christi area for Naval Air Advanced Training carrier qualifications (TS-2A and TF-9J aircraft). During the fourth week each month LEXINGTON remains in port for major upkeep repair on engineering, catapult and arresting gear equipments.

C. Special Topics. As the Fleet's only regular carrier qualification aircraft carrier, LEXINGTON has achieved some notable firsts in carrier arrested landing operations.

On 23 March 1966, LEXINGTON accomplished a record number of aircraft recoveries in one day, completing 604 arrested landings plus 92 touch-and-go landings. On 31 March 1966, LEXINGTON's recovery record was in a single daylight period: 533 daylight arrested landings plus 186 touch-and-go landings. LEXINGTON, during the same March period (supra), set records for five- and ten-day operating periods. For the five-day period 21-25 March, LEXINGTON completed 1756 arrested landings plus 266 touch-and-go landings; and for the ten-day period 21-31 March, 3,016 arrested landings plus 451 touch-and-go landings.

On 1 July, LCDR (b) (6) LEXINGTON's Assistance CIC Officer and Senior COD Pilot, qualified as a Quadruple Centurion aboard the LEXINGTON, and on 29 September he qualified as the ship's first Quintuple Centurion by completing his 500th arrested landing aboard the ship.

On 7 September, the North American-built T-2R "Euclyps" was used for the first time in carrier qualifying student naval aviators. The first twin jet engine T-2R was landed aboard LEXINGTON by ENS (b) (6) (b) (6) of Training Squadron FOUR (VT-4) based at NAS Pensacola, Florida.

III. DOCUMENTARY ANNEXES

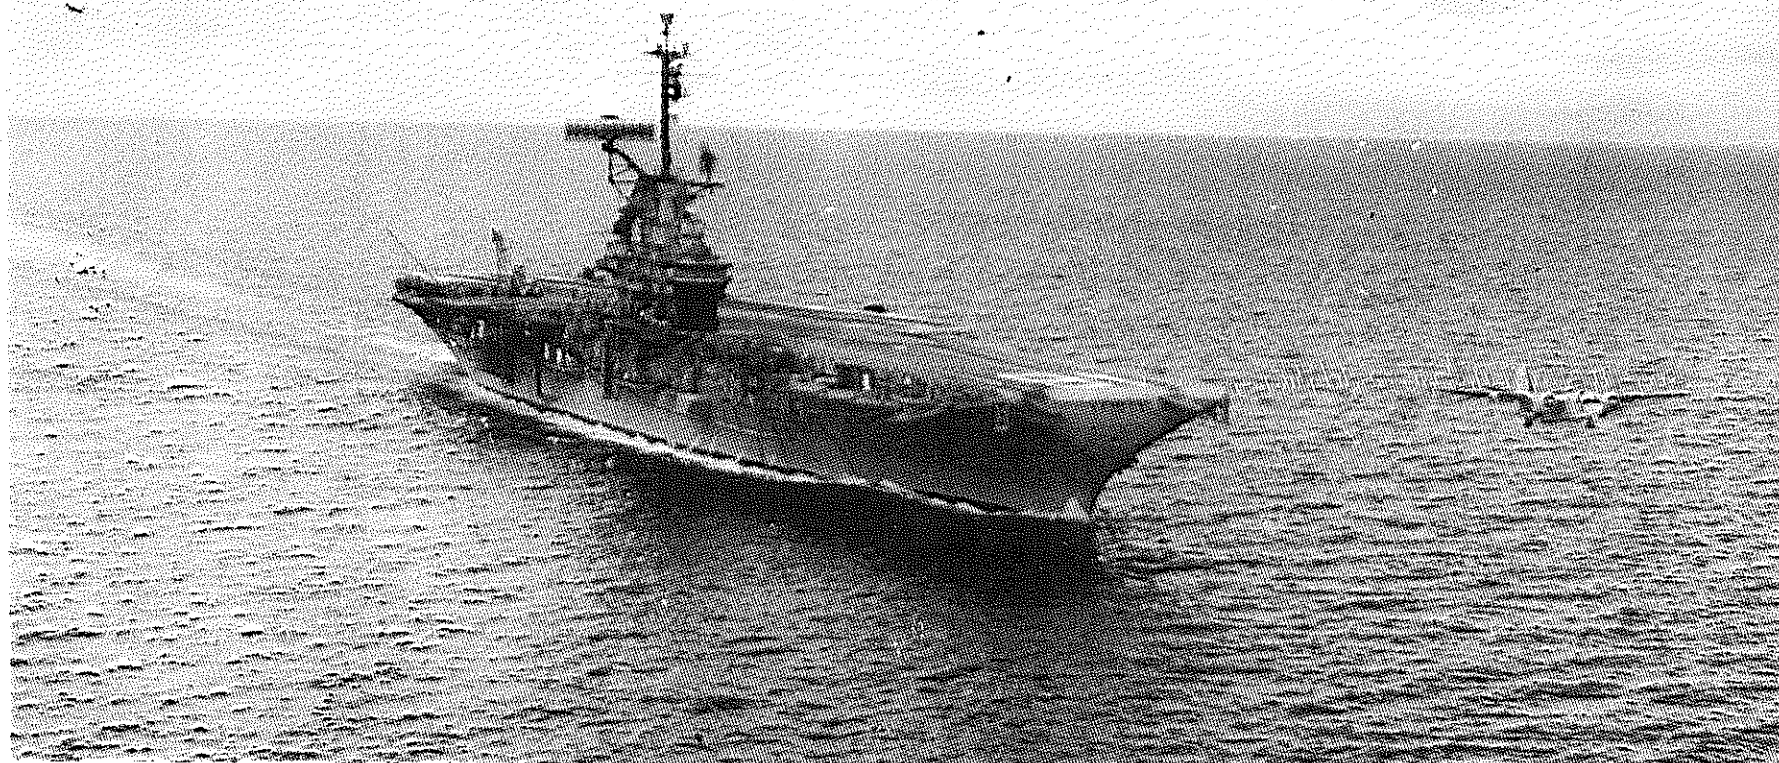

A copy of the roster of officers for the end of 1966 and the public affairs booklet, "USS LEXINGTON CVS-16," are attached.

CAPTAIN J. C. HEISHMAN
Commanding Officer

COMMANDER R. F. J. SCHNEIDER
Executive Officer

USS LEXINGTON Primary Collateral Duties 1 January 1967

USS LEXINGTON (CVS16)
Fleet Post Office
New York 09501

LEXNOTE 1301
11:JRG:djs

LEX NOTICE 1301

From: Commanding Officer, USS LEXINGTON (CVS16)
To: All Officers, USS LEXINGTON (CVS16)

Subj: Primary and Collateral Duties; notification of

Ref: (a) Current LEXINGTON Military Personnel Manpower Authorization
(OPNAV FORM 1000-2 (02-65))
(b) AIRLANT/AIRPAC CV SHIP INST 5400.1, Subj: Standard Ship Organization and Regulations Manual for Aircraft Carrier (CV) Types

Encl: (1) Current Assignment of Primary and Collateral Duties
(2) List of Current Assignments to Courts, Boards, Councils and Committees
(3) Precedence List of Officers
(4) List of Receipts and Transfers
(5) Alphabetical Listing of Collateral Duties

1. Purpose. To inform all officers of this command of their assignment to primary and collateral duties.

2. Information. Reference (a) is the basis for assignment to primary duties. Reference (b) is the basis for assignment to collateral duties, courts, boards, councils and committees. Additionally, U.S. Navy Regulations, 1948, vests in the Commanding Officer the authority to assign personnel under his command primary duties based on the individual's capabilities in order to effectively man the ship.

a. Enclosure (1) shall constitute official notification of assignment to primary and collateral duties for all ship's officers. No other official notice will be given, except when existing directives require individual notification. In those instances where oral assignment is made, pending revision of enclosure (1), it shall have full force and effect as if contained herein. Enclosure (2) has the same effect for assignments to Boards and Committees.

b. Billets listed in enclosure (1) are those established by reference (a) and may be changed only by authority of the Chief of Naval Operations. Collateral duties may include a billet or billets which are vacant, but no officer may be listed in enclosure (1) more than once. "Duties in Training For" shall indicate a billet assigned the ship by the Chief of Naval Operations, in reference (a) and listed in the billet column, other than those billets indicated as "Excess". The Qual date reflects the prospective date (2-digit month and last digit of the year) by which the incumbent of a billet is expected to be qualified to perform the "Duties in Training For" or the word "QUAL" when qualified. It is incumbent upon those personnel assigning "Duties in Training For" to simultaneously assign a realistic qualification date. The term "Indefinite" is not to be used. "Qual Dates" may be adjusted as necessary; therefore, they may be initially established twelve months from date of assignment and subsequently modified as necessary. Enclosure (1) is utilized as the source document for correcting the Officer Distribution Control Report (ODCR) received monthly from the Chief of Naval Personnel and it is essential that it be an accurate reflection of the current officer personnel situation in LEXINGTON.

3. Action. All officers will become familiar with their duties and responsibilities, set forth in reference (b), and shall report any changes or corrections to enclosure (1) through (5) to the Ship's Secretary. Department heads shall submit corrections to the Ship's Secretary not later than the 20th of each month.

R.F.J. SCHNEIDER
By direction
